

VORTEX

 **spinMASTER™**  
BY VORTEX

**MANHOLE  
APPLICATION**

Quadex leads the industry in precision, centrifugal-cast manhole liner system. Designed and developed with direct input from field-experienced manhole applicators, the spinMASTER™ will not only **simplify and speed up the application process**, it will produce a consistently even coating application as well.

#### KEY FEATURES

- 6-blade spinner head
- 1 hp DC electric motor
- Quick coupling attachment for 1-inch plaster hose
- Outdoor rated electric wiring

## spinMASTER™ Power Winch

The spinMASTER power winch features **“continuous ontime” design** which eliminates normal motor breakdown (overheating). The winch can be assembled for either hand control or foot pedal operation to navigate the spinMASTER precision spray head up and down the vertical structure.

#### KEY FEATURES

- Choice of hand or foot pedal operation
- Heavy duty, 2,500 lb lifting capacity
- Fully sealed and water proof system
- Durable stainless steel cable for long term performance
