

Add A Schwalm To Your In-House Maintenance Program!

Save on contracted services, be more responsive, and increase crew utilization.

STEP UP TO SCHWALM!

There's simply no other robot on the planet that's more versatile, durable and reliable. When you add a Schwalm to your program, you're getting more than a robot.

Choose from two Robots to fit your budget and demands:

#1 Talpa 1330 — 6"-12" | **#2** Talpa 2060 — 8"-24"

Cutting
Cleaning
Lateral Reinstatement
Sectional Repairs
High Pressure Jetting

SCHWALM ROBOTICS SYSTEM ADVANTAGES

COMPATIBLE SYSTEM

Schwalm robots are engineered to work with a broad range of existing systems and tools:

- Stable platform that integrates with most CUES, ARIES or Cobra TV truck
- Picote Robo tools
- Works with all European cutters and most U.S. cutters
- Works with cable reels up to 2,000 ft.

VERSATILE AND PRODUCTIVE

With its multi-functional tool mount you can quickly adapt your Schwalm:

- Cutter
- Grinder
- Cleaner
- Packer
- Lateral reinstatement

DURABLE & WORKABLE

Schwalm robots are well-known for their reliability and durable performance. However, scheduled maintenance is recommended:

- Full service center with quick response time
- Recommended overhaul and tune-up schedules
- Rental robots available

DIY REPAIR KIT

Schwalm offers "in the field" repair kits to owners that have received comprehensive repair and maintenance training. These kits address 80% of the repairs typically done in the shop.

Customer Testimonial

We own two robots and perform our own inspection cleaning and lateral reinstatements in our city. By investing in sewer robotics technology, we save the taxpayers nearly \$800,000 annually by performing these repairs in-house.
