UV CIPP SYSTEM TRUCKS

TWO REASONS WHY THIS IS A GOOD DEAL

#1

You can take advantage of Section 179 Tax incentive, and deduct the full cost of qualifying new, or newly purchased used equipment, up to \$1,160,000 from your 2023 taxes*.

#2

Keep your CIPP crew busy during the winter months, with a UV curing system. UV CIPP can be installed in extreme weather environments.

Contact your local Vortex Products rep or email sales@vortexcompanies.com.

**Equipment must be purchased and put into service by December 31, 2023. This year's spending cap is \$2,890,000.*
