ABOUT BUYBOARD

THERE ARE TWO LEVELS OF BUYBOARD:

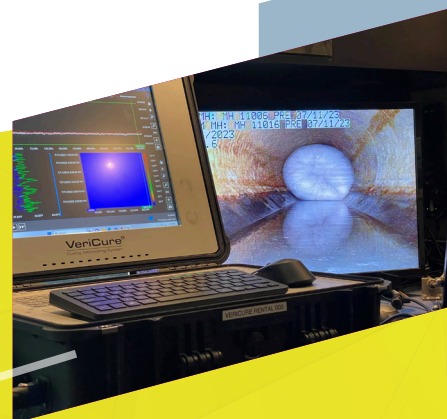

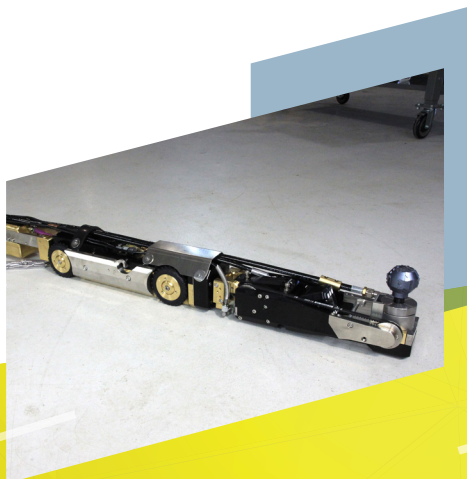

NATIONAL

On the national level, BuyBoard is a cooperative formed between the National School Boards Association (NSBA) and several state school board associations to streamline the buying process for schools, municipalities, and other public entities.

TEXAS

The Texas Cooperative is open to all local governments and other political subdivisions in the state that are authorized to be a party to an interlocal cooperation agreement under the Interlocal Cooperation Act.

BuyBoard gives members the advantage of leveraging the Cooperative's ability to obtain bulk discounts, combined with the ease of online, web-based vendor sourcing.

MEMBERSHIP BENEFITS

BuyBoard streamlines the purchasing process for schools, municipalities, and other public entities across the nation — and membership is free!

COMPLIANCE AND TRANSPARENCY

Contracts and vendors awarded through BuyBoard have been competitively procured to assist members with compliance with local and state procurement requirements and a documented audit trail. All vendors are treated on equal terms and are on the same plane of competition.

VALUE AND CHOICE

Members will find almost everything needed to support their organization. The BuyBoard philosophy has always been that members know best which products they need, and the choice of vendor is their decision to make.

EFFICIENCY AND COST SAVINGS

Because a competitive procurement process has been completed by the Cooperative, members may save time and resources that would have been spent on preparing and conducting a formal RFP.

REQUEST FOR QUOTES (RFQ) APPLICATION

BuyBoard's RFQ functionality allows members to request pricing on volume needs from multiple vendors. This convenient and efficient process can be finalized in a matter of days, versus weeks or months.

MEMBER GOVERNED

The BuyBoard Cooperative is governed by a board of directors composed of participating members.

SUPPORT OF PUBLIC EDUCATION AND LOCAL GOVERNMENTS

BuyBoard was created to support and serve public schools, municipalities, counties, and all types of local government agencies and nonprofits.
