Your Complete UV CIPP System Connection

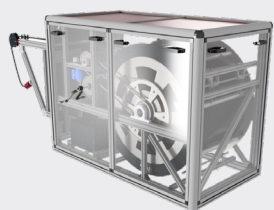

Only one call needs to be made to get **all your UV CIPP system solutions.**

UV LINER - ENVIROCURE UV®

Manufactured in the U.S. and designed for gravity sewers, EnviroCure UV liners are perfect solution for extreme weather and environmentally sensitive projects. Multi-layered construction for high strength.

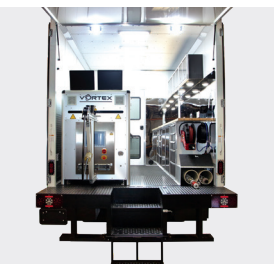

1. Inner Film, Removable
2. Fiberglass/Felt
3. Fiberglass
4. Outer Film - UV Protective Layer

UV CURING EQUIPMENT

Depending on your project demands, choose from our premium CityLight system that can handle it all, to smaller systems for smaller diameter project work.

- **CityLight:** Our premium system, with broadest working range, CityLight UV technology is unsurpassed in its class 6"-80"
- **IMS UV 12000 Compact:** For medium to large sewers up to 64"
- **IMS UV 8000 Compact:** Lighter in duty, but can handle sewers up to 64"

CUSTOM TRUCK BUILDS

Built to your specs, we will equip the right truck for your needs. Provide your own truck, or we will equip one to meet your specs.

- 16' or 20' box truck builds
- Work station
- UV curing equipment
- Light chains
- Accessory package

MISSION CRITICAL ACCESSORIES

Avoid project delays and be prepared. We have UV installation accessories in stock and ready to ship on demand. You never know what is going to happen in the field.

- Light chains and bulbs
- End cans
- Foil racks
- Wheel sets
- Third-man winch
