

CONVENIENT LOCATION

Located just outside the heart of Greenville, SC, our training facility is easily accessible for locals and visitors alike. Say goodbye to lengthy travel and immerse yourself in the world of robotics right here in our welcoming community, just 15 minutes from Greenville-Spartanburg International Airport (GSP).

EXPERT INSTRUCTORS

Our instructors are industry veterans who are passionate about robotics and are committed to your success. With their years of experience in trenchless pipe rehabilitation, you'll benefit from their wealth of knowledge and receive personalized guidance throughout the training program.

Introducing Vortex Tap Cutting Institute™ in Greenville, SC

WANT TO BE A TAP CUTTER? NEED TO HONE YOUR SKILLS? LEARN FROM THE BEST USING THE SCHWALM ROBOTICS SIMULATOR.

The industry needs more skilled tap cutters. We will teach you using the latest robotic technology. Look no further! The Tap Cutting Institute is strictly focused on teaching you the skills and art of precision cutting, utilizing the latest technology in our Schwalm Robotics Simulator.

SPECIALIZED TRAINING

At Vortex Companies, we focus solely on trenchless pipe rehabilitation, ensuring a laser-focused and in-depth training experience. Learn from industry leaders and gain the expertise to tackle any cutting challenge that comes your way.

STATE-OF-THE-ART SIMULATOR

The Schwalm simulator provides a true-to-life, hands-on experience, replicating real-world scenarios with precision. Harness the power of the Schwalm Robot and hone your cutting skills in a safe and risk-free environment – perfect for trainees of all experience levels.

ADVANCED TECHNOLOGY

At Schwalm Robotics, we believe in staying at the forefront of technological advancements. Our simulator boasts cutting-edge technology that mirrors the action and feel of real-life tap cutting using sewer robots, guaranteeing an authentic learning experience.

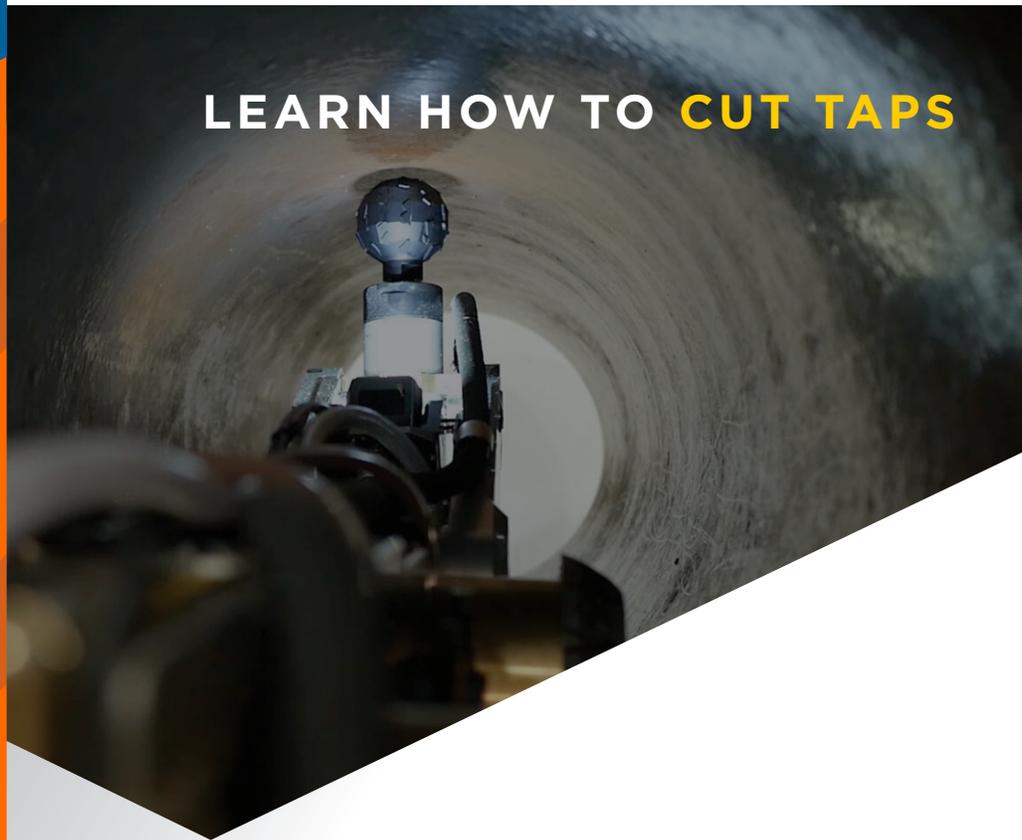

LEARN HOW TO CUT TAPS

FLEXIBLE PRICING

We understand that your training needs may vary, which is why we offer flexible pricing options to accommodate both individuals and groups. For just **\$750 per day, up to 4 people** can dive into the world of robotics together. Bring your team of up to **8 people, for just \$1,250 per day**, ensuring exceptional value for your investment.

FREE with Every Tap Cutting Course:

- **Troubleshooting Strategies:** Discover effective troubleshooting strategies that will empower you to overcome challenges efficiently. Understand how to identify and resolve potential problems to ensure seamless operations in the field.
- **In-Depth Repair Techniques:** Delve into the intricacies of Schwalm sewer robots with our expert instructors. Learn hands-on repair and maintenance techniques and master the art of diagnosing and fixing common issues that might arise during sewer robot operations.
- The **FREE additional training** is seamlessly woven into the Tap Cutting course and requires no extra time. It is our gift to you as part of our commitment to your success. Sign up today!

WHO SHOULD ATTEND?

Whether you're a business looking to upskill your team of operators, or an aspiring engineer, our simulator training is tailored for individuals and groups seeking to master robotics technology.

EXPERIENCE THE FUTURE TODAY! TRAIN WITH THE BEST, ACHIEVE THE BEST!

Join us in Schwalm Robotics Simulator Training and gain the confidence needed to excel in robotic trenchless pipe rehabilitation. Elevate your expertise, enhance your career opportunities, and take your projects to new heights.
